Via Fax: (714) 670-7292

May 1, 2000

Dear Ms. Lee:

Thank you for taking the time to speak with me earlier today. As I told you during our conversation, and as you can see from the enclosed information, the introduction of the Viage scanner in this area has generated nothing but positive feedback from police, liquor license holders and the public.

In addition to its use as a tool for battling the crime of underage drinking, several police departments in Allegheny County have indicated their desire to use the scanner in their community relations programs to illustrate to teens and adults the dangers of underage drinking along with drinking and driving. In order to assist these departments, I'm requesting the use of 6 (six) additional scanner units. We will of course, direct all inquiries about the product to your local distributor, Total Systems Control.

We hope that you will find this request satisfactory, and we thank you for your anticipated consideration.

Best Regards,
